

Advanced Technology for Your Field

This breakthrough, state-of-the-art product features a patented manufacturing process that ensures a more uniform nutrient distribution -- providing the nutrients crops need *in just one granule*.

12-40-0-10S-1Zn

Why It's Different

This premium product line is superior to traditional phosphate blend fertilizers because it provides uniform distribution of nutrients. And that means your entire field is evenly nourished. Plus, it has two forms of sulfur for season-long nutrition.

4-Way Blend Fertilizer Distribution

MicroEssentials™ SZ Distribution

● Ammonium Sulphate ○ Mono-Ammonium Phosphate ● Elemental Sulphur ● Zinc

Performance, Profitability, Peace of Mind

Performance you can trust. Profitability you can expect. And peace of mind you deserve. That's what MicroEssentials™ SZ offers you.

**Performance.
Profitability.
Peace of Mind.**

Next Generation Crop Nutrition

MicroEssentials™ SZ

Tomorrow's Results – Today

MicroEssentials™ SZ can help make every plant grow, thrive and produce. And give you the performance, profitability and peace of mind you need to succeed - now and in the future.

Increase sales and revenue. Differentiate your business. And, enhance customer loyalty.

These are just a few of the powerful benefits you can realize with MicroEssentials™ SZ.

Overview of MicroEssentials™ SZ (12-40-0-10S-12n)

MicroEssentials™ SZ is a premium product for use on corn, wheat, rice and barley. Every granule contains four vital nutrients: nitrogen, phosphorus, sulfur and zinc (SZ). These nutrients work together to increase phosphorus uptake by up to 30 percent.

Let MicroEssentials™ SZ help you cultivate success - one field at a time.

Cultivate Success - One Field At a Time

In today's environment, you need new methods for increasing fertilizer efficiency. You also need a product with essential nutrients that has a strong track record of performance and profitability. And that's why you need MicroEssentials™ SZ.

Differentiate Your Business

Selling this leading, state-of-the-art product line will not only help your customers - it will help to set your business apart in the marketplace by:

- Positioning your business as a leader in crop nutrition
- Significantly increasing sales and revenue
- Growing your business and enhancing customer loyalty
- Helping your growers become top producers

Key benefits of MicroEssentials™ SZ:

- Ensures balanced nutrition
- Provides needed nutrients in each and every granule
- Improves distribution of nutrients compared to a blended product
- Eliminates the nutrient segregation that is possible with a blend
- Ensures more uniform application in the field
- Offers two forms of sulfur: 50 percent sulfate and 50 percent elemental
- Provides season-long sulfur availability
- Improves nutrient uptake due to the chemistry of the granule
- Is convenient and easy to use as a direct application, blend or starter
- Saves bin storage space

The bottom line: it's versatile, easy to use and it improves nutrient uptake. That's the MicroEssentials™ difference.
